

Thursday 30th November 2023 ; Post 16 trip to Cadbury World

As part of an Employability course and to help practice social skills, staff and students made their way to Bournville for a fantastic day touring the site. Starting with a very informative talk from Cadburys staff at 10am the day then quickly progressed to a visit to the 4D cinema, chocolate tasting and an interactive theatre show explaining how chocolate was made. Of course, no trip to Cadburys would be complete without a visit to the shop where students were able to practise some real life maths when acquiring various chocolate products. A truly memorable day for everyone and lovely feedback from the staff that hosted our visit " You should be so proud of your students as they were beyond fabulous - so well informed and fantastically engaged".
