

## total communication

*I have been fortunate enough to do 2 training sessions on Total Communication at Tewkesbury Leisure Centre.*

*Both training have included learning lots of specific signs to Swimming, but also generic signs to help the teachers/staff at the pool easily communicate with individuals who require more support and learning the importance of Total Communication.*

*It has been great fun doing both training sessions and going back to the pool and watching the staff include signing and symbols into their teaching.*
