

Name: Daniel Rose Co-Opt Governor
Term of office: 01/06/2023 – 31/05/2027

Member of the following Committees: -
People, Finance, Premises

Business Interests: None declared
Role held within other educational establishments: None
Biography:

I have worked in the Utility Industry since 2003 in electrical engineering and project management. Now, I mainly work on large scale domestic and commercial projects dealing with high voltage network alterations and new connections. My responsibilities include the health and safety of staff and the electrical safety of the network we are working on, along with financial management and effectively managing customers and contractors. I also work on the Branch Committee of the Gloucestershire Branch of the NAS which is supported by Alderman Knight School.

I have two sons, one of whom attends Alderman Knight School and I have been extremely grateful to all staff for their support with his transition to and continued education at this school.

I am honoured to be appointed as a governor and look forward to proudly supporting Alderman Knight through its continued future successes and outstanding reports.
